It's hard to believe that Article 25, written in 1948 has still not been put into practice. As a citizen, I fully support its implementation and ask you to as well.

Thank you for your support!

Sincerely,

Test cities are popping up all over the country. This is not only wrong, but completely avoidable if we implement Article 25.

Won't you join us in making Article 25 the norm, rather than an ideal?

Sincerely,  
*M. J. Jones*
